**NORTHERN LIGHTS:** This program includes a special six-night Northern Lights Academy – which means that during 6 evenings there is a combination of presentations, lectures, a film and guided searches for the Aurora Borealis – the Northern Lights. All countryside hotels in this program offer a Northern Lights wake-up call for guests that register for that special service at the hotel reception. The Northern Lights Exploration series are designed to spend 6 evenings in the countryside to maximise the chances of seeing the elusive Northern Lights, still the tour is dependent on weather and therefore sightings are not guaranteed. The Northern Lights are in the northern hemisphere from September through April but are only visible when the sky is clear and free of clouds. Like many of natural wonders, the Northern Lights are ephemeral – they may be visible, they may appear for a bit and then be gone (it is not a TV show that you can just turn on and off). But it is worth the patience which is much required. Because they are a winter event, you need to be prepared to wait outside while looking for them. It is best to dress very warmly, in layers, with good footwear, gloves, hats and whatever else makes you comfortable while you await patiently this truly outstanding event. For the best photos, we recommend using a tripod.

**NOTE:** Itineraries may be subject to change at short notice during severe weather conditions and certain outdoor activities/day trips may be cancelled during the winter season in Iceland. In these rare cases, where situations of force majeure apply, excursions/activities cannot be refunded but the local guides will try their best to find reasonable alternatives where and whenever possible.

Borgarfjörður is known as the Saga Valley because of its many important historical events. We get a chance to climb the Grábrók volcano crater and get warmed at Deildartunguhver, Europe's most powerful hot spring which produces 180 litres per second of water that is nearly boiling - 97° Celsius. Hraunfossar is a series of waterfalls pouring from beneath a wide lava field. Barnafoss – the Children's falls, is nearby with its own tragic tale. We spend two nights in Borgarnes, West Iceland. The afternoon includes a lecture about Northern Lights. After dinner, we step into the hotel garden in search of the Northern Lights followed by a hot cup of chocolate or tea.

*Snæfellsjökull Glacier*

### **Day 3: SNÆFELLSNES PENINSULA & FJORD CRUISE**

The Snæfellsnes Peninsula “the peninsula of the snowy mountain” just out from Iceland’s west coast, like a long arm with a clenched fist at its tip, and is in many ways a microcosm of the whole island. A rugged mountain chain runs its length. We travel to the charming fishing town of Stykkishólmur for a cruise in the Breiðafjörður fjord. After a light lunch a uniquely Icelandic “treat” awaits us at Bjarnarhöfn, where they make Hákarl - the fermented shark. Depending on road and weather conditions, we visit the fishing village of Grundarfjörður, a place with an impressive coastline and mountains, lakes and waterfalls behind the village. Jutting out into the bay rises one of the most photographed mountains in Iceland, Mt. Kirkjufell. On the way back to Borgarnes the guide gives you some practical tips on how to photograph the Auroras as part of the Northern Lights Academy program. Naturally, once darkness falls, we are out in the hotel garden to chase the Northern Lights and to soak in the hotel’s outdoor hot tubs.

Overnight location:

Icelandair Hotel Hamar, Borgarnes. Breakfast & light lunch included. Dinner is on your own. (250km / 155mls)

*Gullfoss waterfall in winter*

### **Day 4: GOLDEN CIRCLE, GEOTHERMAL TASTE & ICELANDIC HORSES**

The chef of the Restaurant Geysir invites you to taste freshly baked hot spring bread served with

Icelandic butter, boiled eggs and herring. On we travel to double waterfall of Gullfoss. In the afternoon, you learn about the Icelandic horse, its unique qualities and history and visit a geothermal greenhouse, before we reach the accommodation in South Iceland. Tonight, step into the darkness and search for the elusive Northern Lights, while best enjoyed from a comfortable hot tub in the garden of the hotel, amidst the peace and stillness of rural Iceland.

Overnight location:

This museum contains an outstanding collection of farm and domestic artefacts from Iceland's past and several turf-built houses. Nearby is Skógafoss waterfall which is 60 meters high and one of the most impressive waterfalls in the country. In the afternoon we take a stroll on the black lava beach and along bird cliffs at Reynisfjara in South Iceland. We spend two nights near Kirkjubæjarklaustur in the Vatnajökull National Park region, located in darkness and ideal for Northern Lights search.

Overnight location:

Hotel Klaustur, Kirkjubæjarklaustur. Breakfast included, dinner is on your own. (197km / 123mils)

*Floating icebergs on the Glacier lagoon*

### **Day 6: SKAFTAFELL NATIONAL PARK & VATNAJÖKULL GLACIER**

Today's program is all about glaciers, ice and icebergs. We travel to Jökulsárlón, a glacial lagoon filled with floating icebergs, and we explore the amazing site and might see seals swimming in arctic waters. You can walk on the black sandy beach, the so-called Diamond beach, where large icebergs get stranded. In the afternoon we visit the tiny turf church at Hof and spend time at Europe's largest national park, which has Iceland's highest mountains, an alpine environment, and Europe's largest glacier. In the evening enjoy a film presentation about the Northern Lights as part of the Northern Lights Academy program. Be careful not to go to bed too

soon in this remote and quiet location, or you may miss out one more chance of seeing the Northern Lights shimmering and dancing across the night sky.

Optional Ice Cave Tour offered between November 15th and March 15th  
The tour takes about 2,5 hours in total – nearly 30-minute drive by 4×4 vehicle from the Jökulsárlón glacier lagoon and 5-15 minutes hike (one-way). You spend about one hour inside the ice cave. You need good hiking boots, warm clothing that keeps you dry from the dripping water in the ice cave. Minimum age is 10 years old. The ice cave explorers meet their local guide at the glacier lagoon at 14:00 and will be brought back to the hotel after the ice cave tour, while the rest of the group continues the official tour program. The ice cave explorers will miss out on some of the official tour programs, as there is no time for everything, but the stop and visit at the Jökulsárlón glacier lagoon are included for all group members.
