Whale Fjord– Fabulous Waterfall Hike – Europe's most powerful hot springs – Lava Falls
Approximate driving distance: 185 km (115 miles)

Today's Hiking Level: Moderate "Plus"

Breakfast at your hotel. Pick up from your hotel at 8:00 (8:00am). Begin the day with a short orientation tour of Reykjavik. This is Iceland's second highest waterfall, which descends gracefully in streaming ribbons down a 200-metre (658 foot) drop into a massive canyon adorned in lush, green moss. Both the fjord and the waterfall are linked to a local legend about a mythical whale that swam up the waterfall into the lake at the top. Eerily enough, whale bones have been found here!

Spend some time hiking in the area to enjoy different views of the waterfall and surrounding nature. Before heading to your overnight accommodation, you will also visit the amazing Hraunfossar "Lava" waterfalls and the Deildartunguhver, the most powerful rushing hot springs in Europe.

Near Deildartunguhver is the Krauma Geothermal Resort. Enjoy a visit here, where you can relax in a variety of hot tubs of different temperatures and take in the beautiful scenery. Krauma also has two soothing steam baths perfect for soothing joints. Then lounge in the relaxation room and enjoy soothing music and a crackling fireplace.

Dinner and overnight stay in the Borgarfjordur area.

Hiking information for Glymur waterfall:

Distance: 5 km / 3,1 miles

Elevation: 357 m / 1.172 ft

Walking time: About 4 – 5 hours
